

PICTURING AMERICA (40 titles)

The Picturing America program offers reproductions of some of our nation’s most remarkable art. Materials include a set of twenty large reproductions (24 x 36 in.) printed on both sides with high-quality color images, the Teachers Resource Book, and additional resources on the NEH Picturing America Web site. For ease of use, the reproductions are numbered by side (for example, 1-A and 1-B) and are arranged in roughly chronological order. This was done so that the images that have some historic or thematic relationship appear on one sheet, front and back. For example, if a class is studying pre-colonial America and early Spanish settlement, reproduction side 1-A, which includes pre and post-contact Hopi pottery, can be turned over to reveal the image of a Spanish mission for a discussion of early Spanish settlement in the Southwest (1-B).
